MOTHERS DAY 2012

INTRODUCTION

Just as a mother’s love can be a reflection of God’s love, so can a mother’s anger and wrath be a reflection of God’s anger and wrath. The scriptures are constantly showing that God is not some far off being; He is closer than we could ever imagine.

In God’s closeness we better understand His wrath, His love, and ultimately His grace. This too is reflected in our relationship with our mothers. Though God is called “Father” throughout the scriptures, a motherly love many times is the best representation of His grace.
